

DigiTech

WHEN THE DISPLAY IS NOT AN OPTION

DigiTech is Tecnosicurezza's display-equipped entry-level electronic lock, purposefully built for professional environments where clear user feedback and detailed audit capability are essential, without the complexity or cost of an advanced multi-lock system.

Its intuitive 16x2 display and multilingual interface guide operators through every action, while a timestamped audit trail of up to 8,000 events delivers the transparency required by public authorities, jewellers and restaurateurs demand.

The automatic Daylight Saving Time adjustment and onscreen audit review eliminate the small administrative tasks that accumulate during busy service periods.

Programming and system resets are handled via Dallas keys, enabling quick on site maintenance by the safe technician without disrupting business hours.

Locks & Security Systems

A 16x2 multilingual display replaces guesswork with on-screen confirmation at every step—from code entry to programming—reducing training time and operator errors.

Record up to 8,000 timestamped events with date and time. Download audit data via Dallas key (up to 900 events) or directly to a PC for the full log meeting regulatory and compliance requirements.

Silent alarm, remote disable opening, remote time delay override, and penalty lockout protect against coercion and manipulation attempts.

One manager, up to 28 users, and an override user with configurable time delay (1–99 minutes), open window (1–19 minutes), dual-mode and Dallas key management.

Software and Documents

Keypad

- 16x2 Display
- 10 alphanumeric keys
- Function keys
- Keypad test
- Automatic DST
- Green/Red LED
- Buzzer
- Battery compartment
- Dallas key reader

Power supply

- 9V alkaline battery
- Battery box
- Power adapter

Lock

- Manager
- 28 users
- Override user
- Time delay 1 – 99 minutes
- Open window 1 – 19 minutes
- Silent alarm
- Remote disable opening or Remote time delay override
- Penalty
- Dual mode
- Audit trail of 8,000 events with time and date
- Dallas key management

Locks

- SwingBolt
- DeadBolt
- LatchBolt
- MotorLock
- Motor LatchBolt Lock
- MotorLock Push&Pull
